

“
 As a leading construction company who employs a number of ex-Royal Engineers we appreciate the benefits and the varied skillset that a ‘Sapper’ brings to the civilian workplace. The transfer of their numerous military and trade skills which have many similarities required in the construction industry provides the company with an industry leading workforce.
 ”

ROYAL ENGINEERS ASSOCIATION

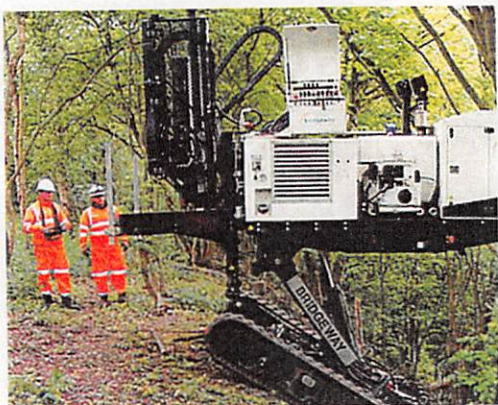

<http://www.reahq.org.uk/>

Sappers Network is all about you – the serving and veteran Corps – Regular and Reserve. We are a brotherhood, and Sappers Network brings that to life, alongside benevolence, heritage, sport, and all the other stuff we do alongside the training and operational piece:

So what is Sappers Network designed to do – to help you find jobs, and it has the potential to benefit all of you, it will also help retention and recruiting too. Sappers Network will be run commercially by ex-Sapper professionals. Profit is not the main objective – you are – but any profit will be ploughed back into Corps funds to support benevolence, sport etc.

SAPPERS NETWORK
is the right thing to do –
please use it.
